Sandip University, Nashik, Maharashtra

SUMMARY

I am a dedicated MySQL developer with a strong foundation in data analysis and business intelligence. My experience includes designing and optimizing databases, creating impactful visualizations, and implementing forecasting models using Power BI. I am passionate about leveraging data to drive business decisions and enhance operational efficiency.

EXPERIENCE

MySQL Developer

Heal Bharat

06/2023 - 01/1970

Role focuses on MySQL development and database management.

- Worked as a MySQL developer, focusing on backend database management.
- Designed, optimized, and maintained relational databases for efficient data storage and retrieval.
- Ensured seamless integration with backend services.

EDUCATION

Bachelors in Computer Science Engineering

Sandip University

09/2022 - 06/2026 Nashik

HSC

Lotus Valley School

07/2019 - 07/2020

SSC

Lotus Valley School

06/2021 - 06/2022

KEY ACHIEVEMENTS

Database Performance Enhancement

Improved database performance by 40% through optimization techniques.

Data Migration Lead

Led a team of 5 in a successful data migration project.

Interactive Dashboard Development

Developed 10+ interactive dashboards in Power BI.

Query Optimization Achievements

Reduced query execution time by 30% using indexing.

SKILLS

Customer Relationship Management

Customer Segmentation

Data Modeling

Data Visualization

database management

DAX

Github

MySQL

Power BI

Python

Relational Databases

SQL

PROJECTS

Various Data Analysis Projects

06/2023 - 01/1970

A collection of projects showcasing skills in data analysis and visualization.

- GitHub repository with projects:
